

# LEBI MARIA C

Tirupur, Tamil Nadu.

+91 94426 49054

[lebimaria.in2006@gmail.com](mailto:lebimaria.in2006@gmail.com) [GitHub Repository](#) in [Linked In](#)

## Technical Summary

Aspiring Software Engineer with a strong foundation in Artificial Intelligence, Machine Learning, Java, Python, and Full-Stack Development, seeking to build scalable and innovative technology solutions while contributing to real-world projects.

## Education

**St. Joseph's Matriculation Higher Secondary School, Tirupur.**

SSLC – 100% and HSC – 89.83%

**V. S. B. Engineering College, Karur, Tamil Nadu. 2023-2027**

B. E. Computer Science Engineering (Artificial Intelligence & Machine Learning) - **CGPA: 9.18**

## Technical Highlights

Java, Python, JavaScript, HTML/CSS | FastAPI, Flask, Streamlit, n8n | NLP, RAG | REST APIs, JWT, RBAC | PostgreSQL, SQL

## Projects

**AI Resume Screener** | Python, FastAPI, React, PostgreSQL, Sentence-Transformers [| GitHub – AI Resume Screener](#) **March 2026**

- Built a full-stack resume screening platform using FastAPI + React with semantic similarity matching (all-MiniLM-L6-v2)
- Engineered a Resume DNA Profiling system that classifies candidates into archetypes (Builder, Leader, Specialist) using NLP
- Implemented explainable AI scoring with weighted breakdown and shareable result links via JWT-secured APIs.

**Smart Inventory Management System (SIMS)** | Python, FastAPI, React, PostgreSQL [| GitHub – SIMS](#) **July 2025**

- Built a production-ready full-stack SaaS inventory platform with JWT authentication, role-based access control (Admin, Manager, Staff), and real-time stock tracking with full audit trail.
- Implemented AI demand forecasting, profit margin analytics, barcode scanning, expiry alerts, and Excel/PDF export.
- Developed a customer self-service POS system with QR code table ordering, UPI/cash payment flows, and a live orders dashboard for staff.

## Experience

**Infosys Springboard – Virtual Internship 6.0 - [View Credentials](#)**

**Artificial Intelligence & Machine Learning | August 2025 – October 2025**

**Project: Budgetwise – AI-based Expense Forecasting Tool**

- Developed a Flask-based web application that forecasts user expenses using an AI-driven Retrieval-Augmented Generation (RAG) model integrated with SQL database.
- Designed and optimized backend workflows for secure data handling, enhancing performance and scalability.
- Collaborated in a team environment to present the project workflow and results during final evaluation.

## Extracurricular / Certifications / Achievements

- Oracle Cloud Infrastructure 2025 Certified Generative AI Professional – [View Credentials](#)
- Oracle Cloud Infrastructure 2025 Certified Data Science Professional – [View Credentials](#)
- Programming in Java, NPTEL – [View Credentials](#)
- Smartathon 2.0, IEEE IAS × L&T — Winner, 24-hour national-level hackathon (St. Joseph's College of Engineering, Chennai) – [View Credentials](#)
